CINCINNATI, O., Oct. 19.—One of the best handicaps of the year was the stake event, the Queen City handicap, at Latonia to-day. Eight or the best horses in the West went to the post, and the betting was fast and furious.

The only drawback was the long delay at the post, some forty-five minutes, caused by Yo Tambien.

Free Advice, Simon W., and Buck Massie were in front from flag fall to finish, but in the home run ix horses came down the stretch almost abreast.

It was a grand race, handsomely won by Buck Massie in the last sixteenta. Yo Tambien carried the bulk of the money. She sulked at the post, and del not get to running until at the half-mile post, when she moved up amid wild cheers from the grand-stand.

As to the Standard's promise to est lish a factory here, if they are gives franchiae, what has the question of fr coise to do with establishing a facto cause to do with establishing a factory Either Richmond is the best place for them to build a factory or it is not. I it is, they will build a factory her whether they get a franchise or not; I it is not a good place to establish a factory, they will not do so. This sam promise to establish factories is being rande in Cleveland, Fiftshurg, and numer ous other places. In Baltimore, the Standard manager claimed three month ago, that they had a franchise in Rich ago, that they had a franchise in Rich mond, had put up their poles, and wer stringing their wires, in order to sell the stock of the Columbian Standard Tele

In Portland, Ore, they claimed to have a factory already built in Cleveland, and to be building a plant in Newark, though they have not even applied for a franchise in Newark, and are not doing any work there or anywhere else-except on paper.

We do not question that the telephone exhibited here by the Standard Company is a good Instrument. But it is a Bell telephone, and we are ready to demonstrate this at any time that they will permit an expert to examine it. It infringes on the Watson, Roosevelt, and other patents owned by the Bell Company, and is an exact duplicate of the Bell long distance telephones used throughout the country. The Standard Company has been denounced in the most caustic terms as a swindle worse than the green-goods game by "Electricity," a reputable journal published in New York city, but they have made no defence. "Electricity asserted that they have no factory; that local companies, which have paid money for rights have been unable to secure catisfaction and that they believe that every man who has paid 31, into the treasury of this company has been the victim of a gross swindle, "Electricity" also reprints a circular letter of instructions sent out by the parent Standard Company, in which it is suggested that by the plans proposed, "THE PROMOT-FWS OF THE LOCAL TELEPHONE COMPANY WOULD HAVE 420.00 IN CASH NET PROFIT TO PLAY WITH, AND A STOCK INTEREST IN ENPERY TELEPHONE OF \$24.00 TO GREASE COMMON COUNCILS, TO SELL TO LOCAL THIRD-PLOOR, SUB-CELLAR INVESTORS, ETC.

The following communications are explanatory:
To the Editor of The Times:
Sir.—In reply to the criticisms which have been made of Governor O'Ferrail, as to his course in reference to firing a State salute in honor of the memory of General Mahone, I desire to state that I had an extended conversation with the Governor on the night before the funeral, and that he expressed a desire to do honor to General Mahone, as a brave and gallant Confederate soldier, and stated that he would cheerfully order a State salute if I or any one else could show that it had been customary. Upon reflection, I could not recall a single instance where a State salute had been fired for a major-general and inquired of the Adjutant-General and Major Simons, who were present, whether such salute They could not recall

any instance.

The Governor then said that he could not direct these honors to be shown to General Maltone's memory, when they had not been paid to the memories of Generals Pickett, W. H. F. Lee, and others. I was fully satisfied then, and upon mature reflection, am more convinced that he was fully justified in not issuing the order.

So anxious was Governor O'Ferrail to pay due honor to General Mahone, as a brave general and officer of the Confederacy, that he directed Major Simons to send a gun and gun detachment to Petersburg, to fire minute-guns at the grave or during the funeral, the expense to be paid out of the contingent fund.

The reason why this was not done is explained to me by General Simons.

The reason why this was not done is explained to me by General Simons. THOMAS A. BRANDER, Past Commander, Grand Camp of Vir-ginia, Confederate Veterans.

The statement that the Governor would not allow the Howitzers to fire a voluntary salute in Richmond is also untrue. I refused to give the order-myself and the Governor knew nothing whatever about it.

Committees to Meet To-Morrow.

The Committee on Water will hold a called meeting to-morrow evening at 7 o'clock, in rogam No. II of the City Hall, and the Committees on Water and Finance will held a joint session at 8 o'clock. At the same hour the special committee appointed to investigate the affairs of the Gas-Works, will meet in the office of the Superintendent of the Gas-Works, on the ground-floor of the City Hall.

The Common Council will have a special session at 7:39 P. M., to take action in regard to the O'Donnell water equalizer.

The statement that would not allow the Howitzers to fire would not allow the Howitzers to fire would not allow the Howitzers to fire a voluntary salute in Richmond is also untitue. I refused to give the order myself and the Governor knew nothing whatever about it. On examination of my records, I have been unable to find a single instance where a State salute was fired in honor of any General except Reauregard, who was a full general. The State salute fired when ex-Governor, and not as eGneral. When General Pickett, Walker, and Cooke died, salutes were fired at their graves by my order, and not by order of the Governor.

Major First Battalion Artillery.

To the Editor of The Times:

Sir.—I was present officially at the reception by the Governor of Virginia to the Ancient and Honorable Artillery, of Boston, on the evening of October 8th, at which time the suggestion and required was made to him to fire a State salute in honor of General Mahone's memory. The Governor consulted several efficiency present to find if State salutes had been fired in cares of the death of Major-Generals, and the general opinion and advice was that it had not been friends.

The body, was discovered by Mr. Parsley, who occupies No. 14 and he at once communicated the fact to the sergeant in charge of the First station. Coroner Taylor was notified, and he went down and viewed the remains, but decided that an inquest was unnecessary, as death resulted from natural causes.

usual. He was anxious to pay tribute to a brave Confederate soldier and general officer, but concluded that he could not establish such a precedent and thereby discriminate in favor of General Mahone and against other deceased Major-Generals of the Confederacy.

There was absolutely no discussion of the matter, except in a strictly military sense, by any one that I heard speak of the matter, and any statement to the contrary is erroneous and cannot be established by the testimony of any person who had anything to say on the subject.

The Report Against a New Bishopric in That Country Adopted.

MINNEAPOLIS, MINN. Oct. 19.—There was a noticeable falling off in the attendance of deputies at the Episcopal Convention to-day, and a roll-call developed the fact that fully one-maif of the lay delegates were unrepresented.

From the Committee on Constitutions, Dr. Huntington, of New York, submitted a resolution requiring the consent of a majority of the parishes affected as well as of the diocesan convention for the erection of a new diocese. On t vote by dioceses the proposal was adopted, with but one diocese voting in the nexative.

erection of a new diocese. On t vote by dioceses the proposal was adopted, with but one diocese voting in the negative.

The same committee reported, the reference to the establishment of a court of appeais for the benefit of clergymen convicted by diocesan conventions of offences against the canonical law, that it was inexpedient to legislate upon at the present time. On motion of Dr. Perkins, of Kentucky, the matter was referred back to the committee with instructions to make provision for the establishment of a sourt of appeals, either in connection with or independent of the provincial system.

There was considerable discussion on a new canon defining the relative duties of rectors, church warnens, and vestrymen, but the question was finally put off for three years.

Debate was then resumed on the resolution carried over from last evening, providing that in all future editions of the hymns.

Considerable opposition developed to the resolution, and anally, with all amendments, it was laid upon the table.

The sensation created yesterday by the House proposal to consider the message of the hishops and the establishment of a new missionary diocese in Japan, with Rev. J. M. Francis as bishop, was now renewed by a report from the Committee on New Dioceses in respense to a request from the convention.

The report declares in consequence of the papanese church will be in a position to control its owns affairs, it is inexpedient to erect a new diocese. A minority report approving the new jurisdiction was submitted by Dr. Harrison, of Springfield in behalf of four of the nine members of the committee, and Mr. L. H. One Steadfast Purpose \$100 Reward clinches its tireless efforts upon the lever of the Big Store's

enterprise, and that purpose is to continually put into circulation in this community the best class of Men's and Boys' Wearables of the world's markets at the lowest possible price that immense quantity spot-cash figuring can control.

From the makers to the consumers direct the goods pass without middlemen's profits. This business actually contains Four Separate Stores crowded into one. Every department practically a store within itself, all consolidated on the two floors under one management, jointly conducted under a systematic, conservative and economic basis. Practical economists fully appreciate the great savings and reliability of the merchandise.

NOTHING BUT THE PLAIN TRUTH.
